

UV Sterilization Cabinets

Model K-50

Model H-75

Model F-100

The solution for easily sterilizing eyewear and headsets with no dripping or drying. Independent testing has concluded that the ultraviolet sanitization processes in these cabinets are lethal to virtually 100% of all microorganisms. Three cabinet sizes available to meet your usage requirements.

Features

- 15-minute timer for controlled sterilization
- Safety door switches and key locks
- Sight glass
- Constructed of heavy-gauge steel (stainless steel optional)
- Long-life ultraviolet bulbs lasting 8,000 operating hours
- Heavy-duty, 8-foot 18/3 grounded neoprene power cord
- Made in the USA
